

Technical Data Sheet

DEFOAMER B-101

Defoamer

A specially blended, highly effective, organically modified silicone-based anti-foam agent. Due to its unique chemical structure **DEFOAMER B-101**, when used at the recommended concentrations, will not prevent paint and other coatings from adhering to the metal surface. It is used in very small quantities where foaming has become a problem.

TYPICAL PROPERTIES

Description Clear to hazy liquid, pleasant odor
pH (neat) approx. 7.0
pH (in use) Assumes pH of the fluid being used
Specific Gravity 1.00

RECOMMENDED APPLICATIONS

1. Added sump side, typically 0.005% to 0.025% of **DEFOAMER B-101** is all that is necessary minimize foaming. Add directly to system in area where foam has become a problem.
2. In the concentrate **DEFOAMER B-101** is effective between 0.1 to 0.5%

AVAILABILITY

DEFOAMER B-101 is available in 5 and 55-gallon non-returnable containers as well as 330-gallon returnable totes. All sales F.O.B. Detroit, MI
