

Technical Data Sheet

POWR-CLEAN SURF

Multipurpose Cleaner

POWR-CLEAN SURF is a concentrated, low alkalinity general maintenance cleaner. POWR-CLEAN SURF is specially designed to be an effective cleaner at low concentration without relying on strong alkalis, phosphates or objectionable solvents.

POWR-CLEAN SURF is recommended for use in mechanical floor scrubbing, hand wipe, spray, steam gun, and pressure washer applications. At recommended concentrations, POWR-CLEAN SURF cleans all common surfaces, usually does not require rinsing and leaves a natural, very pleasant "fresh and clean" fragrance behind in the cleaned area.

TYPICAL PROPERTIES

Description.....	Green liquid with a pleasant odor
pH(5%).....	8.5
Specific Gravity @ 25C.....	1.01

RECOMMENDED APPLICATIONS USAGE RATE

LIGHT SOIL:	4-6 oz/gallon of water.
NORMAL SOIL:	8-10 oz/gallon of water.
HEAVY SOIL:	10-12 oz/gallon of water.
