

Technical Data Sheet

POWR-MUL

Emulsion Cleaner with Long-Term
Rust Protection

POWR-MUL is used for the removal of oils, soils, shop dirt, grinding residues, chips, lubricants, and grease in a power spray washer. The rust-prevention built into **POWR-MUL** provides excellent in-plant and humidity resistance (3-6 month) to machined and ground surfaces of steel forging, malleable, modular, and gray iron castings.

TYPICAL PROPERTIES

Description	Light brown, low viscosity fluid
Oil Content.....	73.5%
Specific Gravity	0.98 – 1.10
pH (5% Emulsion in DI water)	8.5

RECOMMENDED APPLICATIONS

1. Usually operated at 2%-7% by volume in a heated spray washer at 140°F. to 160°F.
2. May also be used in dip applications.

AVAILABILITY

POWR-MUL is available in 5 and 55 gallon non-returnable containers as well as 330 gallon returnable totes. All sales F.O.B. Cincinnati, OH.
